

Please, please, please do not implement any proposal that would lessen Indiana's Telephone Privacy Law protection.

I finally have peace during the day to go about my business at home. Before this law was enacted, I would receive upwards of 6 calls PER DAY from unsolicited companies selling EVERYTHING! Since the law took effect and our names added to the list, I rarely receive more than 1 A WEEK! It has certainly had a positive effect on our families time at home. I urge you, for my own sanity as a mom with small children are at home during the day, to PLEASE implement NO LAWS changing the effectiveness of Indiana's Telephone Privacy Act.
